These cases are consolidated for pretrial purposes only.

The Clerk of the Court will maintain a master docket with a single docket number and master record under the style In re: T-Mobile Customer Data Security Breach Litigation, MDL 3019, Master Case No. 4:21-MD-03019-BCW.

When an order, pleading, motion, or other document is filed and docketed in the master docket, it shall be deemed filed and docketed in each individual case to the extent applicable. To ensure that all documents are accurately filed, counsel shall select the master MDL case number in association with filings. The caption of any order, pleading, or other document shall contain a notation indicating whether the document relates to all cases or only to specified cases within MDL 3019. If a document generally applies to all cases within MDL 3019, the caption shall include the notation of “ALL ACTIONS.” If a document applies to fewer than all cases within MDL 3019, the caption shall include the specific case number assigned in the United States District Court for the Western District of Missouri and shall also identify the name(s) of the individual case(s) to which it applies, in addition to “MDL 3019” and the master case number and name.
